PROFESSIONAL SUMMARY

A Information Technology graduate with experience in IT technical support and technical systems administration, with a focus on providing technical assistance to users and resolving technical issues related to hardware, networks, and operating systems. She has knowledge of software installation and configuration, printer setup and network sharing, and monitoring device performance to ensure continuous and efficient operations.

She possesses skills in technical documentation and report writing, as well as the ability to communicate effectively with the IT team to support daily operations. She aims to develop her career path in IT support and technical infrastructure, contributing to improving the quality of IT services within work environments.

EDUCATION

- Bachelor of Science in Information Technology | Princess Nourah University – Riyadh, Saudi Arabia
Expected Graduation: 2026

TRAINING & CERTIFICATIONS

- Microsoft Excel (Advanced Analysis & Reporting) – Udemy – Completed: 05/08/2025 – Duration: 5 Hours
- Introduction to Artificial Intelligence – SDAIA – Completed: 06/08/2025
- IT Support – General Directorate for Health Services, Ministry of Defense- 18/01/2026 – 16/04/2026
- Governance, Risk & Compliance (GRC) Professional Certificate – OCEG, USA

KEY PROJECTS

Smart PNU Application (2025)

- Developed an improved application for Princess Nourah University students featuring detailed grade tracking, GPA calculator, and academic plan monitoring.

Yusr – Hajj Support Application (2025)

- Designed a mobile app for pilgrims to complete Hajj rituals, providing prayers, supplications, and real-time location services.
- Role: UI/UX design ensuring accessibility and user-friendly navigation.

Eco-haneefa(2026)

- Eco Haneefa Project is a smart IoT-based environmental monitoring system focused on waste management in Wadi Hanifa. It detects waste accumulation and monitors environmental conditions such as fill level, weight, gas, temperature, and motion in real time.
- The system displays data through a dashboard to support efficient monitoring and improve environmental cleanliness and sustainability in natural areas like Wadi Hanifa.

KEY SKILLS

Hard Skills

Troubleshooting hardware and software issues | Installing and configuring Windows and applications | Setting up printers and network sharing | Supporting network issues (IP configuration and basic troubleshooting) | Managing shared folders and user permissions | Connecting devices to the network and ensuring functionality | Monitoring system performance and stability

Technical Skills

Hardware & Software Troubleshooting | Windows Installation & Configuration | Printer Setup & Network Sharing | Network Connectivity Support (IP configuration & troubleshooting) | Device Setup & Network Connection | System Performance Monitoring & Maintenance | Software Installation & Updates

Soft Skills

Analytical Thinking & Problem-Solving | Time Management & Prioritization | Team Collaboration & Communication | Attention to Detail & Accuracy | Adaptability & Continuous Learning | Strong Written & Verbal Communication

LANGUAGES

- Arabic – Native/Fluent
- English – Intermediate
